The Arizona Corporation Commission
1200 W. Washington
Phoenix, AZ 85007-2927**RE: North Valley 230kv Facility Site Project**
Docket #120**L-00000D-02-0120**

To Whom It May Concern:

I am a resident in the KB Home development that lies between Dynamite and Happy Valley roads. I am a mother of two small children, 6 and 4 years old respectively, and I have recently been informed of the proposed route *Gold* for the 230kv lines that are being considered in my neighborhood.

To say the very least, I am completely opposed to this proposal. The proposal has the 230kv lines to be installed to follow the west side of the frontage road between Dixileta Dr and south to Happy Valley Rd which would be no less than a block from my residence. I do not have an understanding as to why APS has chosen to attempt to install these high powered lines within a community that has already been developed and is full of young families similar to my own whereas the east side of the frontage road has not been developed and sits vacant.

Please note that I am formally opposed to this proposal and hope that it is reconsidered.

Sincerely,

Dawn Hillman
Lot #386
